

Adventure of a lifetime (WCH)

If it's thrills you want and fun in mind, join NZ Adventures, its one of a kind.
There's 8 days of the unknown, tho' you can do 5
Assuming, by which time you're still alive
You need a jovial person, to keep all highly entertained
We had one such 'WIT', who'll remain un-named
This vista's spectacular, from way up high
So join up folks, don't let the chance pass by

One of the routes was via Napoleons Hill
Where there's a steep track, WOW!!! That was a thrill
A Nissan Patrol was stranded, one wheel in mid-air
Our guide I'm sure, longed to YELL and swear
Instead, he got busy with his trusty chainsaw
To the delight of the group, they cheered with a roar
A stump must be removed, before we can traverse
Thru' a man made tunnel and a long watercourse

Abandoned mines, you'll see here and there
And a large building with pipes, which circulated air
To the many miners working way down below
In a time of Long - Long Ago.
There were villages too, quite large for those times
With shops, catering for families, of men in the mines
Alas!!! All that remains are cemeteries on the hills
A sad legacy of illness and broken wills

There's much more to pen, but I'm out of paper
Contact NZ Adventures Ultimate Experience, that's the caper,
They look after you well John and his team
Providing you aren't off, on some hair brain scheme
On day 5 or 8 when your adventure ends,
You'll say farewell to new found friends,
You'll thank your customer manager and your guides
For a great time had by you, and the MANY
Bumpy rides
