VEHICLE SUITABILITY

There once was a time when all 4WD vehicles were Landrovers and life was simple, if tough. Now we have a multitude of 4WD and All wheel Drive vehicles with varying degrees of off road capability. In the past we have only catered for low ratio equipped high clearance vehicles. However most of the new generation, non low ratio 4WDs are capable of much more than shopping trips, so from 2009 NZ Adventures added a specially tailored High Country Heritage Safari for these vehicles. By subtracting the gnarliest terrain and adding new suitable tracks we have come up with a Safari which embodies all the spirit of back country exploration – without the grief of possible panel damage and overheated transmissions.

• **Low ratio equipped, high clearance vehicles:** Suitable for all NZ Adventures Safaris. These vehicles are fitted with a transfer gearbox giving high and low ratios and also have high ground clearance and generally heavy duty high profile tyres. This applies to most Utility style single and double cab 4WD vehicles. Also including: Nissan Safari, Patrol, Pathfinder, Navarra, Mistral. Isuzu Bighorn, MU. Mazda Marvie, badged Vitara, 4x4 Ute. Holden Jackaroo, 4x4 Ute. Mitsubishi, Pajero, Proceed, L300 van. Kia Sportage. Suzuki Vitara, Escudo, Jimny. Toyota Surf, Prado, Landcruiser. Landrover Discovery, Range Rover, Defender. Jeep. Ford Explorer, 4x4 Ute. Ssangyong Rexton. This does not apply to low ratio equipped Subaru Outback and Forester which have lower ground clearance and a long front overhang.

• **Non low ratio equipped, moderate clearance vehicles:** Suitable for our new Heritage All Wheel Drive Safari. These vehicles are not fitted with dedicated low ratio transmissions but may have extra low gears in the normal transmission and/or the addition of various forms of traction or height control. Ground clearance and body overhangs are moderate and tyres are often lower profile. This applies to: Audi Q7. BMW X3, X5. Ford Escape. Honda CRV. Hyundai Santa Fe, Terracan, Tuscon. Kia Sorrento. Lexus. Mercedes GL Class, M Class. Mitsubishi Outlander. Nissan X Trail. Porsche Cayenne. Ssangyong Kyron. Toyota Rav, Highlander. VW Toureg. Volvo XC.

Please note: This list is not definitive, there may be omissions and specifications are constantly changing. Driver attitude and skill is also a factor. We have seen a VW Toureg master tough terrain the average owner would balk at taking a valuable vehicle over, and a Subaru Outback's long front overhang expertly squeezed between boulders, which if contacted, could have caused certain cosmetic damage.
